

THE WIRELESS HiFi SYSTEM

THE WIRELESS HiFi SYSTEM

Only Sonos delivers the powerful combination of HiFi sound and rock-solid wireless in a smart system that lets you play all the music on earth from any source to any room.

**"THE BEST WAY I'VE EVER FOUND
TO PLAY MUSIC."**

Forbes.com

**"SURPRISINGLY EASY TO TURN
YOUR ENTIRE HOME INTO A Hi-Fi
LISTENING ROOM."**

Men's Journal

**"THE GOLD STANDARD IN ALL THINGS
WIRELESS MUSIC SYSTEMS."**

Huffington Post

STREAM ALL THE MUSIC ON EARTH

Songs you've known forever and artists on the verge. Oldies. Indies. Rock. Jazz. Sonos is the wireless system that plays your personal music collection along with music services like Spotify and Pandora and thousands of free Internet radio stations. It even plays your iTunes music direct from iPhone, iPad or iPod touch, wirelessly.

YOUR LIBRARY

You've collected, downloaded and curated the perfect music library. Now it's time to put away the earbuds and set the music free. Sonos wirelessly streams your music library from your computer or external drive to every room of the house.

FREE INTERNET RADIO

Local stations and broadcasts from around the globe. Nothing stands between you and over 100,000 free Internet radio stations, shows and podcasts. Tune in wirelessly and let the listening begin.

MUSIC SERVICES

Any song you can think of, anywhere in the house, instantly. Create your own radio station, discover just-released songs or find every track ever released from your favorite artist. This is music unleashed.

Music services availability varies by region.

MUSIC WHERE YOU WANT IT

Whether you're adding on or starting from scratch, Sonos has a player for everyone and every room.

CONNECT
CONNECT:AMP

BRIDGE

SUB

Love your stereo?
CONNECT makes it wireless

Already have speakers?
CONNECT:AMP turns them
into a wireless HiFi system

Want wireless flexibility?
Connect BRIDGE to your
router so your players can
go anywhere and work
wirelessly.

Want to feel the bass?
SUB adds soul-shaking bass

Want movie theater sound?
PLAYBAR brings HiFi sound to
your high-definition TV

Big room or outdoor space?
PLAY:5 fills it with sound

Smaller room?
PLAY:3 packs big sound in
a compact all-in-one

PLAYBAR

PLAY:5

PLAY:3

PLAYBAR

HiFi MEETS HiDef

PLAYBAR's nine-speaker design floods any room with super-realistic audio for games and movies, huge waves of live concert sound, and wireless streams of all the music on earth. And it all comes from one easy-to-use player that brings HiFi sound to your high-definition TV.

THEATER SOUND QUALITY

PLAYBAR features six mid woofers and three tweeters, two of which are positioned at each end of the player and angled outward to spread out a wider soundstage.

DOUBLES AS A STEREO SYSTEM

PLAYBAR moonlights as a high-end, all-in-one stereo set-up that can wirelessly stream your music library, free Internet radio and more.

PLAY:5

THE ORIGINAL, BIGGER ROOM, BIGGER SOUND, ALL-IN-ONE SONOS PLAYER

The all-in-one player that's a HiFi powerhouse of sound. PLAY:5 features five speakers and amps that will astound your ears. Start with one then expand until every inch in your home is packed with your favorite tunes.

CRYSTAL CLEAR, ROOM FILLING SOUND

Five integrated speakers powered by five dedicated digital amplifiers—two tweeters, two mid-range drivers and one subwoofer—provide superior sound that rivals much larger, more complicated audio equipment.

ALL DIGITAL SOUND ARCHITECTURE

Enjoy precise sound reproduction, just as the artist intended. All filter settings, active equalization and time-alignment are done in the digital domain so there's no loss of audio quality or energy.

PLAY:3

THE COMPACT, ALL-IN-ONE SONOS PLAYER WITH BIG SOUND

This versatile all-in-one player packs big sound into a compact size. With three speakers and amps, PLAY:3 will fill your room with wall-to-wall sound. Go vertical, go horizontal, hide it on a shelf, or mount it on the wall. Perfect for small rooms and music hungry spaces.

BIG SOUND IN A SMALL PACKAGE

Three speakers powered by three digital amplifiers deliver pure, clean sound. A bass radiator produces powerful low notes while two mid-range drivers and one tweeter fills out the sound.

VERSATILE FOR ANY ROOM OR SPACE

Position the PLAY:3 vertically or horizontally and the internal sensor will modify the speaker's output to ensure clean, balanced sound. Think kitchen, bedroom, bathroom, or any room at all.

SUB

**SOUL-SHAKING SOUND. HEART-POUNDING
DESIGN. ONE-BUTTON SETUP.**

Get one seismic step closer to the spine-curling, jaw-dropping, full-body experience music was meant to be. Whether you're listening to Beethoven's thunderous 5th or the pounding bass line of the latest four-on-the-floor obsession, the SUB lets you hear and feel the weight of every chord, kick, splash and roll.

* Works with all Sonos amplified components: PLAY:3, PLAY:5, PLAYBAR and CONNECT:AMP

LOUD AND CLEAR

Two force-cancelling speakers are positioned face-to-face so that none of the sound and energy of the music is lost in cabinet buzz or rattle.

AMPLIFIED POWER

Powering the SUB are two state of the art Class-D digital amplifiers that have been perfectly tuned to match the speakers and acoustic architecture.

CONNECT

TURN YOUR STEREO INTO A MIND BLOWING, MUSIC STREAMING SONOS SYSTEM

Stereo lovers rejoice. This is the Sonos player that makes your HiFi go WiFi. Just hook up your favorite stereo, home theater or powered speakers to CONNECT and wirelessly play a world of music using the equipment you already own. Welcome to the streaming generation.

WORKS WITH THE AUDIO EQUIPMENT YOU ALREADY OWN

Seamlessly integrates your home theater system and other audio devices into your Sonos Wireless HiFi System.

SUPERIOR AUDIO QUALITY

Analog, optical and coaxial digital audio outputs are engineered for premium performance. Fixed or variable audio output options provide flexible volume control.

CONNECT:AMP

TURN YOUR SPEAKERS INTO A FLOORBOARD RATTLING, MUSIC STREAMING SONOS SYSTEM

If you want to stream all the music on earth to your favorite pair of speakers, this is the Sonos player for you. Just attach CONNECT:AMP to bookshelf, floor-standing, outdoor, or in-ceiling speakers and blast a world of music to any room. No receiver needed.

WORKS WITH YOUR FAVORITE SPEAKERS

Built-in amplifier means you can turn any speaker into a Sonos system in minutes.

AUDIOPHILE QUALITY SOUND IN ANY ROOM

Powerful Class-D digital amplifier powers large or small speakers with 55W per channel.

SIMPLY AMPLIFIED

No rewiring. No complex programming. Simply connect the BRIDGE to your router and place your Sonos player anywhere in the house. And as your system grows, BRIDGE links all your Sonos components to the Internet with one touch, streaming rock-solid wireless from room to room.

TWO WAYS TO STREAM

Either connect one of your players directly to your router or, if your router isn't in a room where you want music, use a BRIDGE to wirelessly link all your players to the Internet's infinite supply of music.

ROCK-SOLID WIRELESS

Sonos gets your music where you want it without wires, interference or bandwidth battles. That's because it works over our proprietary wireless mesh network called SonosNet that doesn't compete with or impact the performance of your home's existing wireless network.

SONOS BRIDGE

Perfect for setting up Sonos when your router isn't in a room where you want music.

CONTROL MADE EASY

Can't find the remote? That's because there isn't one. Wirelessly take control of your Sonos player with your smartphone, tablet or computer and play a different song in every room or the same song everywhere, in perfect sync.

SMARTPHONE OR TABLET

Download the free Sonos Controller App and control your entire Sonos system with your Android™ smartphone or tablet, iPhone, iPod touch or iPad.

COMPUTER

Simply download the free Sonos Controller App for instant control on your Mac or PC.

AWESOME ALONE. REVOLUTIONARY TOGETHER.

In the living room. In the kitchen. In the TV room. Inside. Outside. Upstairs. Downstairs. Play a different song in each or the same song throughout the house, in perfect sync. Sonos components wirelessly connect to each other to create a rich, immersive listening experience that fills your whole home with music.

PLAY ANYWHERE

Pick the perfect player for every space. Then mix and match players to round out your system. Amplify your stereo. Stream to your speakers. Make every corner of your house groove and go to your listening happy place.

EXPAND WIRELESSLY

One touch is all it takes to expand your system. You can even take an all-in-one player outside for an instant al fresco listening experience.
